

*Did you know...* one of Dean Mitchell's first jobs was to paint pictures for Hallmark greeting cards? Mr. Mitchell often paints his favorite people or buildings like those in the *New Orleans* show at the Gadsden Arts Center.

What kinds of people or places or things would you paint on a greeting card? Use the space below to design your own greeting card. Make this a "just for fun" card and include pictures of your favorite people or favorite buildings.

Don't forget to color on both sides. When you are done, cut out the card, fold it down the middle and give it to someone special!
